

## A&D/TBI-Waiver Services Supplemental- Personal Emergency Response System

The waiver includes adult day services, attendant care, case management, homemaker, residential based habilitation, respite care, structured day program, supported employment, behavior management/behavior program and counseling, environmental modifications, healthcare coordination, occupational therapy, personal emergency response system, physical therapy, specialized medical equipment and supplies, speech-language therapy and transportation. These are waiver services options that can be provided and will be services that people are receiving. Not everyone will be receiving the same services, however. Some will receive Physical Therapy or Transportation or Attendant Care, or some other service that reflects their needs.

The **Provider Compliance/Consumer Satisfaction Tool** will be supplemented with the following tool depending on what waiver service the person is currently receiving. A review of the CCB/POC will determine what services the person has. The surveyor will determine by reviewing the CCB/POC and talking with the Case Manager the exact services the person has. By so doing, the surveyor will take the appropriate supplemental Provider Survey Tool to complete the survey. The following is an example of that supplemental Provider Survey Tool for a person who is receiving **Personal Emergency Response System** services:
